ABOUT ME

I am an experienced Full Stack Python Website Developer and Data Analyst with a strong background in creating web applications and software solutions. I have worked in the technology industry with a focus on both front-end and back-end development, as well as data analysis.

Key Skills:

Web Development (Full Stack): Proficient in developing web applications using Python, Django, and various front-end technologies such as HTML, CSS, and JavaScript. I have experience building responsive and user-friendly web interfaces.

Database Management: Skilled in database design and management, with expertise in SQL and NoSQL databases like PostgreSQL and MongoDB. I can efficiently store and retrieve data, ensuring optimal performance.

Python Programming: Highly proficient in Python programming, using it for web development, scripting, and data analysis tasks. I am familiar with Python libraries and frameworks like Flask and Pandas.

Data Analysis: Experienced in data collection, cleaning, and analysis using Python's data analysis libraries such as Pandas, NumPy, and Matplotlib. I can derive meaningful insights from data and create data visualizations.

Version Control: Proficient in using version control systems like Git to manage code repositories, collaborate with team members, and track changes.

Problem Solving: Strong problem-solving and debugging skills, with a keen eye for detail and a systematic approach to identifying and resolving issues.

Communication: Effective communication skills, both verbal and written, allowing me to collaborate with cross-functional teams and convey technical concepts to non-technical stakeholders.

Employment History:

BiZmarrow Technologies, Abuja.

Full Stack Python Website Developer and Data Analyst
February 1st 2023 till Date

WORK EXPERIENCE

Mr. Iyke

Senior level | Full Stack Web, Software Developer $ Data Analyst
Central Business District, Abuja , Nigeria
2023-02-01 | Currently working here

As a Full Stack Python Developer with expertise in web development and Python Data Analyst at BiZmarrow Technologies, my role is multifaceted, encompassing responsibilities in both web application development and data analysis:

1. Web Application Development:
   - I collaborate with cross-functional teams to design, develop, test, and deploy web applications using Python, Django, and relevant front-end technologies (HTML, CSS, JavaScript, Bootstrap framework).
   - I create responsive and user-friendly web interfaces that enhance the user experience.

2. Backend Development:
   - I design and implement scalable back-end solutions, including RESTful APIs, database models, and business logic, ensuring robustness and performance.
   - I conduct thorough testing, debugging, and optimization to maintain high-quality code standards.

3. Frontend Integration:
   - I Integrate front-end components with back-end functionalities to ensure seamless and efficient communication between the user interface and server.

4. Version Control and Collaboration:
   - I use version control systems (Git) to manage code repositories and collaborate effectively with team members.
   - I participate in code reviews, providing and receiving constructive feedback.

Python Data Analysis:

1. Data Collection and Preparation:
   - I gather and preprocess data from diverse sources, ensuring data accuracy and consistency.
   - Collaborate with data engineers to develop and maintain data pipelines.

2. Exploratory Data Analysis (EDA):
   - I perform exploratory data analysis using Python data analysis libraries (e.g., Pandas, NumPy) to uncover insights, trends, and patterns within the data.

3. Statistical Modeling:
   - I develop and implement statistical models and algorithms to solve business problems and make data-driven decisions.

4. Data Visualization and Reporting:

- I create visualizations and reports using Python data visualization libraries (e.g., Matplotlib, Seaborn) to effectively communicate findings and insights to stakeholders.

5. Data-Driven Recommendations:
- I collaborate with cross-functional teams to understand business requirements and provide data-driven recommendations that inform decision-making.

Mr. Sunday Okoh

Senior level | ICT Instructor
Otukpo, Benue State , Nigeria
2022-01-01 | 2022-09-01

Eagle Life High School is a Secondary High School.
